Commander  
U.S. Army Corps of Engineers  
Louisville District  
P.O. Box 59  
Attn: ORHOP-R/Glen Bayes  
Louisville, KY 40201

Dear Mr. Bayes:

Enclosed for your information (Table 1) are the results of the 1987-1990 gypsy moth monitoring program on ten Corps of Engineers sites within the Louisville District. I am pleased to report that no male gypsy moths were caught at nine of these sites in 1990. The only site where any male moths were caught was at Clarence J. Brown Dam. At this site, four moths were caught.

Based on these results, gypsy moth populations should not have any significant impact at any of these sites for a few years. We would like to see the monitoring program continued at all of these sites in 1991.

Thank you for your continued cooperation and if you have any questions regarding these results or future gypsy moth activities at these sites, please contact Rod Whiteman or me at 304-291-4133.

Sincerely,

*for* NOEL F. SCHNEEBERGER  
Entomologist  
Forest Pest Management
